INSECURE COMMUNITIES
STRATEGIES ON HOW TO ADVOCATE FOR IMMIGRANT SURVIVORS AT RISK UNDER ICE ENFORCEMENT PROGRAMS

Presented by
Gail Pendleton & Sonia Parras, ASISTA
Rosie Hidalgo, Casa de Esperanza
Paromita Shah, National Immigration Project
FACILITATORS & RESOURCES

GOALS

- Provide brief background on selected “access programs” & entanglement with the criminal system

- Analyze the impact of these programs on the safety of immigrant survivors

- Provide strategies to improve safety for survivors individually & the systemic responses in light of the programs
What immigration programs are we talking about

- The ICE Agreements of Cooperation in Communities to Enhance Safety and Security (ICE ACCESS) initiative
  - Aims to collaborate with state, local, and tribal agencies
  - Primarily works within our criminal justice agencies
  - Targets “criminal aliens” – what is that?
Secure Communities – uses technology and databases to identify noncitizens for removal

287(G) – AN AGREEMENT TO GIVE AUTHORITY TO LOCAL POLICE AND JAILS TO ENFORCE IMMIGRATION LAW

Criminal Alien Program: ICE agents work in jails and prisons to identify suspected noncitizens for deportation. Supposedly targets “noncitizens”
Detainers

- ICE’s key tool, 8 CFR §287, Form I-247
  - Request, not mandatory
  - Often violated

Secure Communities
How ICE Gets Information
Local Law Enforcement...

- Collects bio data at booking which flags status for ICE
- Allows ICE to interview noncitizen arrestees without telling their attorneys/judges
- Forwards lists of foreign-born individuals
- Asks immigration status and then contacts ICE
- Complies with ICE detainer requests (improperly or properly)
The Criminal Justice System

From Deportation 101, www.nationalimmigrationproject.org
How ICE Access Programs Interact with the Criminal Justice System

Police Stop/Arrest

Police run checks in FBI & Secure Communities databases to identify immigrants.

Police informally question people about immigration status, report to ICE.

287(g) officers target immigrants.

From Deportation 101

287(g) Jail Enforcement Teams target arrestees for interviews about immigration status.

Police check databases for immigration law violators.

Under CAP, ICE gets place of birth and other information, which they use to identify immigrants for interview.

Using info from Secure Communities or jail interview through CAP, ICE or 287(g) officer issues detainer.

While in custody, CAP agent or 287(g) officer conducts initial/additional interview of noncitizen.

During or shortly after interview, ICE or 287(g) officer starts paperwork for deportation.

Booking Into Jail After Arrest

Jail

Arrestee in Jail

Arrest

Bail/Custody Hearing

Criminal Charges & Disposition

Police Stop/Arrest

Judge grants bail (usually higher due to detainer). If bail is posted, detainer is triggered and immigrant goes into immigration custody and deportation proceedings are started.

Detainer triggers judge to deny bail, OR

Completion of sentence and release triggers immigration detainer; immigrant goes into ICE custody/detention OR

Referral to US attorney for illegal reentry prosecution.
Impact on Immigrant Survivors

Increased ICE Entanglement with Local Law Enforcement
Detrimental Impact

- Immigrant victims often face barriers with limited knowledge of U.S. legal system and fears of police and courts from countries of origin, as well as limited English proficiency.

- Current programs increasing fear of calling the police if viewed as arm of Immigration agency, rather than focused on public safety.

- Undermines community policing if victims and witnesses afraid to come forward.
Implementation Issues

- While initial goals claimed to target convicted serious offenders, in reality, nearly half have been arrested for minor traffic violations, misdemeanors or have had charges dropped
  - Over 1 million people deported in past 3 years
- Potential for increased Racial Profiling
- Pretextual Arrests
- Separation of Families
Case Studies impacting victims of domestic violence

- Bolanos case in MD – DV victim called the police; subsequent pretextual arrest led to ICE detention (see Washington Post article)

- California case – Dual arrest resulted in rapid deportation of DV victim even though county DA had chosen not to prosecute; unaware of rights (See Sacramento Bee and LA times articles)

- NY Case – Abuser’s family brought false credit card fraud charges against DV victim; though no charges brought, she was detained by ICE
Evolution of “Secure Communities”

- ICE has reported implementing “Secure Communities” in over 1400 jurisdictions in 43 states since 2008.
- Numerous states and cities began seeking ways to “opt out” due to detrimental impact on community policing, public safety and DV victims.
- ICE later declared that they don’t need contracts with states and cities; fingerprints entered in FBI database will automatically be shared with ICE database.
- “Secure Communities” to be operational in every jurisdiction in U.S. by 2013 according to ICE.
ICE General Prosecutorial Discretion Memo

- ICE Memo of June 17, 2011 “Exercising Prosecutorial Discretion Consistent with the Civil Immigration Enforcement Priorities of the Agency.”

- ICE statement that its limited resources should be focused on higher priority cases
- “The following positive factors should prompt particular care and consideration......:
  - Victims of domestic violence, trafficking, or other serious crimes;
  - Pregnant or nursing women;
  - Individuals who suffer from a serious mental or physical disability;
  - Individuals with serious health conditions”

(See page 5 of ICE memo)
ICE Prosecutorial Discretion
Memo for Victims and Witnesses

• June 17, 2011 additional ICE Memo “Prosecutorial Discretion: Certain Victims, Witnesses and Plaintiffs”
  • “In these cases [specifically noting domestic violence], ICE officers, special agents and attorneys should exercise all appropriate prosecutorial discretion to minimize any effect that immigration enforcement may have on the willingness and ability of victims, witnesses, and plaintiffs to call police and pursue justice.”
  • “Absent special circumstances or aggravating factors, it is against ICE policy to initiate removal proceedings against an individual known to be the immediate victim or witness to a crime.” (See page 1 of Memo)
DHS/DOJ Reviews of Pending Deportation Cases

- In August, 2011, Administration announced that DHS and DOJ will conduct a review of approximately 300,000 pending deportation cases to apply Prosecutorial Discretion guidelines.

- Opportunity to assist or identify DV/SA immigrant victims with pending deportation proceedings.
ICE Memos not Self-Implementing

- Requires vigilance and pro-active involvement of DV and SA programs
  - Specialized safety planning with immigrant survivors
  - Trainings and protocols with ICE, local law enforcement and Courts
  - Serving as a resource to assist immigrant victims
  - Outreach with immigrant communities

- Example of recent New Mexico case – DV immigrant victim detained by ICE in Family Court while seeking Order of Protection
Strategies for working with survivors and increasing safety to counter “secure communities” impact
Red Flags

- REVIEW YOUR INTAKE!!!
- Stopped at the border
- Asked to sign papers at the border
- Scheduled for hearing in front of immigration judge
  - In absentia removal order, final orders etc
- Any encounter with criminal system: arrested, charged, convicted, on probation
- Warrant
- Under DOT investigation
One-on-One Advocacy

- On your first meeting:
  - Address whether your client is a potential target of an access program.
  - Ask open-ended questions and stay at her safety concerns.
  - Some potential questions to determine risk:
    - Have you ever been stopped at the border, talked to anyone at the border, sign any papers, talk to anyone in uniform
    - Did anyone ever gave you any papers at the border?
    - Did you ever get any notices on the mail about hearings
    - Have you ever been arrested, charged, convicted, release from probation, not pay traffic tickets?
One-on-One Advocacy

• Avoid a crisis, find out at the beginning about her concerns

• Your work with her around safety planning must also include how to address situations where she is arrested and:
  • Her children are alone at home or daycare
  • She did not pick up her last paycheck
  • The perpetrator has her passport and access to her money
  • There is a question regarding her ability to pay her bond (criminal or immigration)
  • The abuser may be neglecting children
  • Medical concerns, trauma issues, memory gaps

• These may be some of her immediate concerns but it is helpful to have her think about all other potential issues and address them in advance. This will avoid her signing her removal without first defending her rights.
One-on-One Advocacy

• Be pro-active; Internal issues
  • Develop internal protocols to respond effectively to clients at risk of detention and removal including authorization release of portions of her file
  • Provide a business card with a direct number
  • Train your staff on handling ICE calls
  • Keep “positive equities” on file
  • Medical issues for kids and self including trauma counseling
  • Records to sustain potential immigration remedies
    • Pictures, police reports, no contact orders, G-28, signed I-246, birth certificate, notice of receipt (Form I-707), FOIA, etc.
One-on-One Advocacy

• **IF DETAINED BY POLICE- KEY: NO DETAINER!!!**
  - Review action plan if on file
    - People to call to address her concerns with children etc, including legal representative, faxing of relevant portions of files with request for release on her own recognizance (O.R.).
    - Ask to talk to staff with authority to release client
    - If denied, call allies such as officers assigned to DART or SART team to assist with advocacy

• **IF DETAINED BY ICE**
  - Hand a request for prosecutorial discretion to DRO with authority and OCC including equities
  - Request release OR. Be prepare to assist in request of stay of removal (l-246).
Potential Remedies for Survivors

- U visa
- T visa
- VAWA self petition
- Cancellation of removal
- Motions to Reopen final orders of removal
- Gender asylum, withholding of removal, CAT
- Other general remedies
Systems Advocacy

When a survivor is identified:

- Law enforcement should NOT refer survivors to ICE
- ICE should NOT issue a detainer
- Request ICE or Local Law Enforcement to refer victims to local community-based organizations (CBOS) with expertise in working with such victims (e.g., counseling and other support services)?
- Request to allow survivors to contact your agency or the 1-800 hotline
- Check individual referrals to ensure that the individual was NOT referred to ICE or law enforcement by a partner with criminal domestic assault record
Advocacy Strategies

On detainers:

- Meet with your local detention facility to ensure they are familiar with the prosecutorial discretion policies
- Advocate for protocols not to fingerprint individuals in a dual arrest and to properly screen for potential victims and witnesses before fingerprinting
- Advocate for protocols not to agree to detainer requests when the individual was not charged with a crime or charges were dropped
- Develop protocols to release survivors after criminal bond
- Work with your client by informing her of her rights and formulating a plan
Advocacy Strategies

ON 287G

- Get information about whether your state or local jurisdiction has signed a 287(g) agreement with DHS.

- Talk to your SART and DART about their interaction with this program and how it harms the goals they are intending to accomplish.

- Know your Latest Policy Memoranda Assisting Survivors (Prosecutorial Discretion).

- Propose exceptions for survivors and encourage law enforcement to address issues of victimization and safety and not immigration because of the chilling effect on victims reporting.
Additional general systemic strategies
**Initial Goal Setting**

- Discuss initial goals of campaign
  - May change once you learn more information

- Some Possible Goals:
  - Opt out of S-Comm; no CAP campaign
  - Adopt/modify detainer policies
  - Limit collection/sharing of info w/ICE
  - Implement policy limiting ICE access to inmates
  - Target racial profiling by LEAs
  - Pass city county/ordinance re: enforcement
Who can create a policy to protect noncitizen defendants or victims?

- Administrative – Police Department, County Jail, Sheriff, Department of Corrections
  - Mayor, Governor, State Attorney General

- Legislative – political body such as Council, Commissioners, State legislature
