***Do you want to enhance your college experience with a hands-on communications internship?
We're a national, non-profit, social justice organization seeking a Social Media Intern. Join our collaborative team for a fully remote, for-credit internship experience, and help us create a safer, more just world for immigrant survivors of gender-based violence!***

About ASISTA:

ASISTA is a national leader in the movement for safety and justice for immigrant survivors of gender-based violence such as domestic violence, sexual assault, and human trafficking. Through policy advocacy, strategic litigation, training, case consultation and intervention, we deploy our specialized expertise to change individual lives and oppressive systems.

Our experience and expertise are situated solidly at the intersection of gender justice and immigrant rights. ASISTA's founders helped write the federal laws providing protection for immigrant survivors of gender-based violence, including the Violence Against Women Act. We are part of the broader movement for racial justice, both nationally and globally; the achievement of our goals is inextricably bound up with its success. Our approach is intersectional, holistic, and survivor-centered—elements that make our work, and this movement, stronger and more effective.

Our vision is that immigrants live in a just world free from violence. Our mission is to advance the dignity, rights, and liberty of immigrant survivors of violence. Please see our core values, below. To learn more about ASISTA, please visit our website at www.asistahelp.org.
